EXPERIENCE

NULLCLASS | FULL STACK DEVELOPER INTERN

Jan 2023 – Feb 2023 | Remote

- Integrated chatbot to the website which can give answers of programming languages related questions.
- Made the website fully responsive for mobile and for tablet as well.
- Strengthened my skills upon **MERN, Redux and Redux Thunk**.

PROJECTS

PORTFOLIO WEBSITE | [WEBSITE LINK](#)

React.js

- My portfolio website that I've made using React.js, comes with **darkmode** functionality.

EMART | [WEBSITE LINK](#)

React.js | Styled Components

- Login functionality using Google, GitHub and Facebook which is done by using Auth0.
- Your profile picture and name will be displayed after the login.
- Contact page and mailing using Formspree.
- Your name and mail will automatically be fetched in contact page.
- Entire products data is coming dynamically from the API using **axios**.
- One can filter all the products various kind of category wise.

STACK OVERFLOW CLONE | [WEBSITE LINK](#)

MongoDB | Express.js | React.js | Node.js | Redux | Redux Thunk

- Having all the features of Stack Overflow, additionally I have implemented chatbot to it which can give answer of programming languages related questions.
- **JWT** based user authentication and login system.
- There will be an avatar of your first name after login into the website.
- As far as your security is concerned, you will automatically be logged out if you have not visited the website for an one hour.
- Only same user will be able to delete Q/A and edit profile otherwise option will not be there.
- User can also upvotes and downvotes the questions.

WEATHER APP | [WEBSITE LINK](#)

React.js

- A web application which I've made using real time weather **API** and it shows weather of whichever city you want.

FULL STACK CRUD APP | [WEBSITE LINK](#)

Next.js | Firebase | Tailwind CSS

- Full Stack CRUD App is basically a web app named QuickNote where you can create, read, update and delete your notes quickly.
- **Firebase** is being used for login/logout and storing the information of the user.
- Font Awesome and Tailwind CSS are used for eye catchy styles and animations.
